

Role of Physical Therapy in Nonpharmacologic Blood Pressure Management

HOD P08-22-11-12 [Position]

The American Physical Therapy Association supports the role of physical therapists and physical therapist assistants to promote research, education, practice, and policy for the nonpharmacologic management of blood pressure in collaboration with stakeholders. Physical therapist services include nonpharmacologic management of blood pressure as a standard of practice to enhance the health and well-being of society.

Explanation of Reference Numbers:

HOD P00-00-00-00 stands for House of Delegates/month/year/page/vote in the House of Delegates minutes; the "P" indicates that it is a position (see below). For example, HOD P06-17-05-04 means that this position can be found in the June 2017 House of Delegates minutes on Page 5 and that it was Vote 4.

E: Binding Ethical Document | P: Position | Y: Policy
